

SCAFFOLDS

5-YEAR
WARRANTY

COMPLIANT WITH
STANDARD
NF E85-200

GARDEN'UP // MAXIMUM WORKING HEIGHT : 3,40 M

IDEAL FOR HEDGE CUTTING

QUICK ASSEMBLY
pre-assembled automatic
handles.

TOOL HOOK

ALL ALUMINIUM STRUCTURE

WIDE FEET
bringing maximum stability.
No tools required.

SAFE AND COMFORTABLE ACCESS
ladder with steps

EASY MOVING
two big puncture proof wheels Ø 260 mm.

Video of the product's assembly
available on www.centaure.fr or

You Tube

MAXIMUM LOADING
CAPACITY : 150 KG

RESISTANCE TESTED TO 300 KG
Test 7.3.2. Test of ultimate load equally divided
of standard NF E 85-200.

INSTANT FIXING OF THE PLATFORM AT
THE CHOSEN HEIGHT

PRODUCT FOR DOMESTIC USE

Item code	Barcode	(m)	(m)	(L x W x D) (m)	(kg)	(L x W x D) (m)
209700	3 172965 102062	1.40	3.40	2.37 x 2.40 x 1.15	29.1	2.40 x 0.65 x 0.20

*The structure «in aluminium tubes» is the result of a manufacturing technology patented by Centaure. This process consists in fixing the rung on the scaffold's stiles so as to lock it the system provides a greater resistance to the whole structure. The stile's round shape is the most adequate in terms of resistance and stability. It is mostly use in the world of professional scaffolding.
